DRASTIC ACTION THREATENED BLAIRMORE'S SILENT POLICE

A number of ratepayers who attended Monday night's meeting of the Town Council, expecting to hear a heated controversy over the question of dispensing with the services of the chief of police, were disappointed in finding that the council's attention had been diverted towards the more silent obstacles to traffic, the silent police. The question arose as to whether or not these ornaments should be allowed to remain on our main street during the winter months, and after considerable discussion, a motion put resulted in three for and three against, hence they will likely be allowed to remain.

The minutes of previous regular meeting of the council were read and adopted, and a batch of accounts, totalling around eight hundred dollars were passed for payment.

The request of Mr. W. H. Chappell, on behalf of neighbors and himself, for connection with a water service pipe in front of their premises, was granted, the town to co-operate towards the expense in the usual way.

The annual report of Dr. Stewart as medical health officer was read and approved. The report showed the town generally to be enjoying excellent health conditions. Water had been sent to Edmonton for analysis and found to be a-1. During the year there were 39 births and ten deaths.

Alex. Morency complained that some party or parties had robbed his carrot patch to the extent of about eight hundred pounds (not stealing). This matter was being attended to by the police and there was a prospect of the guilty party being apprehended.

A two weeks' holiday period was granted the secretary-treasurer, to be taken advantage of after the 9:12 of taxes had been collected.

The proposition of the West Canadian Collieries Limited, and others, in connection with the building of a swimming pool in west Blairmore, was laid over for later consideration.

The secretary was instructed to take up matter of gravelling the main highway through town with the provincial department of public works.

Present at the meeting were: Mayor Farmer, Councillors Morgan, Fumigali, McVey, Perazzini, Beebe and Oakes.

GOOD LUCK OMEN

Actors have always been known as the most superstitious people in the world. Black cats frighten them; they won't permit you to whistle in their dressing rooms and they'd rather die than walk under a ladder.

Ramon Novarro, whose new picture, "Son of India," will open at Cole's theatre, Bellevue, on Thursday, September 24th, has a pet superstition. He refuses to start work on a new production without having donned an old and tattered bathrobe. He wore the garment in his first starring vehicle, "The Prisoner of Zenda," and considers it an omen of good luck.

"Son of India" is described as a melodrama-romance and it combines love passages with tiger hunts, stampeding elephants and other exciting happenings. It was adapted by Ernest Vajda from the best-seller, "Mr. Isaacs," by F. Marion Crawford. Jacques Feyder directed. The supporting cast includes Conrad Nagel, Marjorie Rameau, Madge Evans, C. Aubrey Smith, Mitchell Lewis, John Miljan and Nigel de Bruiler.

The remains of John Milnes, who died on Wednesday last, were laid to rest at Bellevue on Sunday. Deceased had been ill for the past six years, being confined to his bed for two-thirds of that period. He is survived by his aged father and mother; his wife and two sons, John and Bill, and several brothers and sisters in England, also one brother, Bunny, in Bellevue. He was forty years of age.

ANOTHER HOLIDAY

Advice from Ottawa recently officially declared Monday, October 12th this year, as Thanksgiving Day according to an order in Council just promulgated by the Governor-General.

This enforcement is in accordance with legislation passed at the last sessions of the Federal parliament, and gives Canada an extra holiday each year in view of the fact that Thanksgiving Day will now be celebrated entirely apart from Armistice Day, which is dated for November 11th in each year.

NOTICE RE FIRST AID CLASSES

A meeting will be held in the head office of the West Canadian Collieries Limited, Blairmore, on Sunday, October 4th, at 11 a.m., for the purpose of forming First Aid classes for the coming winter.

All those interested in this work are asked to be sure to attend this meeting, so we can get our classes going at once and have them finished by Christmas.

M. H. CONGDON,

Sept 24, Oct 1.]

Instructor.

BLAIRMORE PUBLIC LIBRARY

The following books have been placed on the shelves this week:

"Fire in Stubble," by Arczy; "Dark Curtain," by Buckrose; "People of The River," by Wallace; "By The Path of the Storm," by Baird; "Gates Captain," by Chandler; "The Small Sixth Form," by Smith; "Famous Men and Great Events of the 19th Century," by Morris, L.L.D.; "Practical Talks on Improbable Themes," by Crossley.

Library hours are Tuesdays, Thursdays and Saturdays from 7:40-9 p.m.

NIGHT CLASSES IN MINING

A meeting will be held in the general office of the West Canadian Collieries Limited, Blairmore, on Friday evening, October 2nd, at 7 p.m., for the purpose of forming a night class in mining for the coming winter.

As second-class mining will be taken up this year, it is necessary that all those interested in this work should attend this meeting, so we can get organized and started at once, as it will be necessary to do so if we are to get through the whole course this winter.

This class will, of course, be run in connection with the Institute of Technology and Art, and under the supervision of the local school board.

M. H. CONGDON,

Sept 24, Oct 1.]

Instructor.

SEASON'S BEST

With a simple profoundly human story that millions have laughed and wept over, "Daddy Long Legs" will provide notable entertainment for Bellevue screen patrons when it begins its three day run at Cole's theatre, Bellevue on Thursday, October 1st.

Marking the first time that the charming Janet Gaynor and the polished Warner Baxter have been co-starring, this Fox Film's production of Joan Webster's well loved play is confidently expected to set new attendance records at the big picture house during its run. Both the leading players are ideally suited to their roles, and an excellent supporting cast, headed by Una Merkel, John Arledge, Claude Gillingwater, Sr. and Kathryn Williams, and splendid direction combine to make "Daddy Long Legs" one of the real cinematic treats of the year.

"Daddy's" flaring tirade against her oppression in the "Orphan Home," "Pendleton's" decision to send her to college, their dawn of love, misunderstandings and final reunion, are but a few of the story's emotional peaks. Delightful settings, a group of

The World's Grain Show

"Canada, 1930," a booklet published by the Dominion Bureau of Statistics at Ottawa, summarizes the value of production in Canada for 1927 as follows: Agriculture, 38.1 per cent.; forestry, 8; fisheries, 1.3; trapping, 0.4; mining, 6.3; electric power, 2.7; construction, 8.2; custom and repair, 1.9; manufactures, 33.1 per cent.

These figures are significant. They show conclusively the paramount importance of the industry of agriculture.

This importance is accentuated by the fact that the conditions of manufacturing, which occupies second place, reflect almost immediately the conditions of agriculture. It is accentuated even to a greater degree when one comes to examine the manufacturing schedule of the same booklet. Among the twenty-five leading manufacturing industries of Canada, four and eight mill products occupy second place; slaughtering and meat packing third; butter and cheese seventh; bread and bakery products fourteenth.

A glance at the exports schedules discloses the further fact that wheat stands at the top of the list and wheat flour second.

It seems to be needless, therefore, to make an apology for stating that any activity which promises even a surer footing for Canada's greatest industry merits the attention and support of every Canadian.

Will the World's Grain Exhibition and Conference, to take place at Regina next year bear scrutiny from this point of view? Let us see.

In the first place, it is as it's name implies, an exhibition and a conference. Secondly, it is open for participation to all the world.

The exhibition may be conveniently divided into three parts — the competitive, the national, and the commercial exhibits.

The competitive exhibits consist of 19 kinds of field crop products, divided into 56 classes, embracing practically all kinds of grain and seed grown in the world. The total cash prizes amounts to over \$200,000 and the individual prizes are greater than have been offered before, anywhere in the world, at any other exhibition of its kind.

The winning of these prizes, however, is not the real objective of the competitive exhibition. The stimulant for a better quality field product is infinitely more important. It's effect is already apparent. There is ample evidence of this. The demand for registered—better quality—seed is greater all over Canada than it has ever been. One organization reports an increase of almost 100 per cent.

The national and commercial exhibits will tax the floor space of the immense new building to the utmost. Twenty-seven countries have already spoken for space and others will follow—50 are expected. A visit to these exhibits, occupying a frontage of over a mile and a half, will be an educational feature surpassed only by a trip around the world—a trip, by the way, which most of us are unable to enjoy.

The privilege to participate, either as a competitor in any or all the prize classes, as an exhibitor in the national or the commercial section, or as a mere visitor, is open, wide open to the great wide world.

Conferences of technical and practical agriculturists from many countries will take place during every day from July 25 to August 6. The programme will provide for the discussion of every conceivable subject having to do with all phases of field crop production, from the preparation of the soil to the disposal of the product for food, fodder, shelter or clothing.

Then there are the competitions for juniors, the tours of Canada, and a dozen other features, a mere reference to which space will not permit.

This whole programme, although not complete at this time, already contains the names of over a score of the "world's best." Surely such a co-operation of brains as this will constitute an asset to agriculture the value of which no man has the temerity to estimate.

Even from a monetary point of view alone, if the final effect is to raise the value of Canada's agricultural asset of almost 2,000 millions of dollars to the extent of one hundredth of one per cent. annually, the money necessary to carry the project to success will be an exceedingly profitable business investment.

But the World's Grain Exhibition and Conference will do more than this. It will effectively advertise Canada to the rest of the world, will give her an opportunity to take stock and ascertain her standing in field crop production, will stimulate her growers in the use of better seed, will clear away any false impressions in the minds of foreign buyers, will demonstrate to her growers the kind of competition that must be met in the markets of the world, will bring to our own country valuable ideas and experiences, and most important of all, it will take its place among the great events which have brought the nations of the world into closer communion and a little further along the bumpy and tortuous trail toward the fertile meadows of international peace.

Scientist Leaving Canada

Will Use Alberta Coal

Professor Of Toronto University Will Make Home In England

Professor John Cunningham McLennan, head of the Department of Physics at the University of Toronto, is leaving that institution shortly and will make his home in Surrey, England, according to members of the faculty.

Dr. McLennan is a scientist of international note. His work in connection with helium, which he was the first man to discover and produce in commercial quantities, made him world-famous. During the great war he was scientific adviser to the British admiralty.

Would Be Better

A pipeline organ has been invented which turns electricity into music. Many persons would probably be better pleased at the invention of a device to turn some radio music so called, into useful electricity.

Suffered Severe, Painful Cramps In Her Stomach

These terrible cramps in the stomach that double you up in pain and make you break out in a cold perspiration, may be stopped by a few doses of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Lloyd Jones, 204 Argyle St., Halifax, N.S., writes: "I suffered greatly from severe and painful cramps in my stomach. I tried several remedies without result. One day a friend advised me to take Dr. Fowler's Extract of Wild Strawberry, so I bought a bottle and got instant relief."

Cut In British Dole

Variety Of Unemployed Men and Women Are Affected

The 10 per cent. cut in unemployment insurance benefits in Britain, commonly called the dole, will affect a variety of unemployed men and women alike, from the age of 16 to 65. At the same time those in employment are called upon to increase their weekly payments to the "dole fund" and employers' contributions are likewise increased, under the provisions of the national economy bill.

Hitherto youths of 18 have been entitled to \$2.50 a week, rising to \$4.25, according to age. The \$4.25 is the maximum for single men.

Unemployed girls from the age of 16 are entitled to \$1.25 a week, with a rising scale for intervening ages to \$1, when the allowance is \$3.75. Additional benefits for dependents and children will not be affected by the reductions.

SAVED IMPORTED DRESS

"After a little wearing, a lovely green voile—an imported dress—lost colour completely that it was no longer wearable. A friend who had admired it asked me why I wasn't wearing it. I said more. On hearing this, she advised dyeing it and recommended Diamond Dyes. To make a long story short, I did it and was beautifully. I have a lovely new dress that really cost just like—the price of one package of Diamond Dyes.

"I have since used Diamond Dyes for both tinting and dyeing. They do either equally well. I am not an expert dyer but I never have a failure with Diamond Dyes. They are so easy to be made so they always go on smoothly and evenly. They never stop, streak or run, and I never have known the things I dye with Diamond Dyes are redyed at all."

Mrs. R.P., Quebec.

A Satisfactory Experiment

Wrigley Company Find Wheat Buying From Gum Sales Records

The experiment of the William Wrigley Company in purchasing wheat in Canada with part of the receipts from gum sales in the Dominion has proved so satisfactory that it will be continued until December 1, as planned, and probably thereafter.

William Wrigley, Jr., said the indirect business benefits counterbalanced temporary box losses in the purchased commodities, and that generally these might be so realizable, but even a small profit.

Don't Submit To Asthma

You suffer without hope of breaking the shackles which bind you to doleful another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When you are sure, why suffer? This matches remedy is sold by dealers everywhere.

Shortage Of Laying Hens

Unprecedented Movement Of Laying Hens From Farm To Market

An unprecedented movement of laying hens from farm to market is noted in a report of the Department of Agriculture which predicts a possible shortage if the traffic continues much longer at the present rate. The report points out, that, "the remarkable feature of the situation is that it affects the marketing of live hens, and that in spite of the unprecedented volume of the movement all the receipts seem to be moving quite readily into consumptive channels."

The Oil For The Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

A Natural Stimulant

Alcohol Is Normal Part Of Human Brain Says Expert

Can you think clearly with alcohol on the brain? Everyone does, according to Dr. Alexander O. Gettler, noted New York toxicologist, who announced to the United Press his claims that alcohol is present in the brain and liver of every human being—whether drunk or not or total abstainer.

"I have taken as much as a half-dram of pure ethyl alcohol from the brain of a man who never touched liquor in his life," Dr. Gettler said, "by employing a new method of multiple distillation without the use of condensers."

"Alcohol is a normal part of the brain, not only of persons, but of animals, as well. I have found it in dogs, pigs and other animals."

Asbestos is the only mineral that can be woven into fire-proof garments and molded into instruments impervious to flame.

Fishermen Are Now Helped By Science

Britain Has Fitted Up Small Laboratory On Board Trawler

Scientists now go to sea in a small fishing trawler and share the perils and discomforts of the fishermen in their efforts to ensure that the public's fleet of fish shall be perfectly fresh. The British Government's Fisheries Research Station at Aberdeen has acquired the trawler "City of Edinburgh" and fitted up a small laboratory on board. Already methods whereby the period of freshness in fish can be extended from less than a week to about 10 or 12 days, without revolution of present methods of storing fish in ice at sea, have been worked out.

The fishing fleet is being forced to go further and further afield for its catch, and, accordingly, many of the trawlers have to stay away for anything up to a fortnight. These results will be, therefore, of immense benefit to that typically British figure, the tough, weather-beaten North Sea fisherman who daily risks his life to provide the hand-labour with his favourite dish of "fish-and-chips" and they are also valuable to all parts of the Empire where a fishing industry exists.

Recipes For This Week

(By Betty Barclay)

SOUTHERN POCKETBOOK ROLLS

2 cups special cake flour, sifted.
3 teaspoons baking powder.
½ teaspoon salt.
1 tablespoon shortening.
½ cup milk.
Shift four once, measure, add baking powder and salt, and sift again. Cut in shortening. Add milk gradually until soft dough is formed. Knead lightly for 2 to 3 minutes. Roll to ¼-inch thickness. Cut with 2-inch flour biscuit cutter. Fold double and press edges together lightly. Place in greased pan; brush tops with melted butter. Cover and let rise in warm place 20 minutes. Bake in hot oven (425 degrees Fahrenheit) 10 minutes. Again brush tops with melted butter and finish baking. Remove from oven. Brush tops with melted butter. Makes 16 small or 9 large pocketbook rolls. If a larger roll is desired, roll to ½-inch thickness and cut with 3-inch cutter.

SPICY CUCUMBER PICKLE

12 ripe cucumbers.
1½ cups sugar.
2 cups vinegar.
1 tablespoon cloves, whole.
1 tablespoon allspice, whole.
2 tablespoons cinnamon bark.
1 tablespoon white mustard seed.
Cut the cucumbers in slices one inch thick.

Persian Balm—there is nothing like it for creating and preserving a lovely complexion. Cooling, caressing—It soothes and dispels all roughness or chafe caused by weather conditions. Delicately fragrant, it adds exquisite charm to the most finished appearance. Dainty women inevitably choose Persian Balm. A "velvety smooth lotion, it makes the skin rose leaf in texture. Recommended also to soften and whiten the hands. Truly a cosmetic toilet requisite for every woman.

Saskatchewan Dairy Industry

Saskatchewan's dairy industry is expanding. The creamery butter production during July amounted to 2,805,216 pounds, an increase of 337,000 pounds over the output of July last year. The increase for the first seven months of the year came to 11,437,571 pounds or 3,048,971 pounds more than for the similar period of 1930—a gain of 36.3 per cent.

Onions, potatoes, and tomatoes worth £10,000,000 were sent to England from Spain, France, and the Channel Islands last year.

Aching CORNS STOP HURTING INSTANT RELIEF!

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "Putnam's" is so easy, so sure, so painless—thousands use this wonderful remedy, and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store, 50c.

PUTNAM'S

W. N. U., 1908

Canada's Finest Cigarette Tobacco with ZIG-ZAG papers attached

Receiving Public Relief

Care Necessary To Prevent Dismounted Persons From Taking Advantage Of Relief Situation

Recently in the city of Hamilton a man was discovered who had been a regular recipient of relief from the city and who was paying monthly instalments on a radio, the purchase price of which was \$251. From the relief department he had received \$19 in cash, in addition to groceries, a half ton of coal and ten pairs of shoes. Also he had neglected to notify the relief officer that he had been working since June 30 and had drawn a pay cheque of some \$60. He was prosecuted, fined \$40, and required to return the \$19 cash he had obtained from the city.

The surprising thing about this case is not that a person of such peculiar mental twist was found to exist, but that he was discovered and prosecuted. His kind are operating under cover in every city and it is largely due to them that relief officials become more or less cynical and skeptical in their general dealings with indigents. The prosecution of this Hamilton sinner is certainly a step in the right direction.

Demands just now upon relief departments are extraordinarily heavy. While at no time is it legitimate for them to "work" relief departments, that offence is particularly objectionable in the present situation. In view of the fact that always there is someone trying to do this sort of thing and getting away with it, the present would be a splendid occasion to discourage the habit by discovery and prosecution of those who persistently practice it. — Calgary Herald.

Final Stage Of Depression

Winter Will Be Hard But Better Times Are To Follow

"The coming winter is expected to be the final stage of the three years of depression through which Canada has been passing." These words, taken from a speech which E. W. Beatty, president of the Canadian Pacific Railway, made recently at Fredericton, N.B., will be accepted, every where as reassuring. Mr. Beatty is in a position to speak on such matters as he has an inside knowledge of economic tendencies. There is no doubt that we are in for a hard winter, but if we can feel that it will mark the turn of the tide we can see it through with hope and confidence. The darkness is often deepest just before the dawn, and there are certain many reasons for believing that the coming year will see Canada and the rest of the world once more on the upgrade towards normal trade and business conditions. — Toronto Mail and Empire.

Will Publish In Canada

Six American Magazines Will Now Be Printed Here

Publication of six magazines in Canada has been announced by McFadden Publications, and readers of the publications, numbering 200,000 in the Dominion, will obtain them at the same price as prevails today. The company has obtained a Dominion charter.

A statement issued by the publishers says, in part: "By so doing, we not only feel that we can do our part in the promotion of the printing industry in Canada, but we also propose to promote our publications with the newspaper advertising with the knowledge we are building on a staple foundation."

The company has contracted for an advertising campaign covering every part of the Dominion.

Lady Callar: "Is the manager in?" Office Boy: "No. He just went to lunch with his wife."

Lady Callar: "I see. When he comes back with his stenographer, tell him his wife called."

The invention of a wind measuring instrument so sensitive that it will record a drop of wind pressure from eighty-five miles an hour to zero in one-hundredth and twentieth of a second, is announced.

A lot of folk think that begging is an easy way of getting a living, but we'd like to see them try it for a couple of weeks. We have yet to envy a beggar.

Nevada excavations show that man was existent on the northern continent before the ice-age era.

Excessive Highway Building

Eminent British Engineer Says Trucking Most Expensive Way Of Moving Goods

"You have overspent yourselves," said Sir Alexander Gibb, British engineer, warning against excessive highway building in Canada in an address before the Empire Club of Toronto. With the exception of air transportation, highway trucking was the most expensive form of moving goods, when the building of highways was considered, he said:

"Some highways are justified when they are pioneer highways and opening up new sections of the country, but when they become parallel to other means of transportation, you are piling up a huge debt which you and your children and your children's children will have to pay," he said. "If I have any criticism to offer—and it is in a kindly spirit that I offer it—you have overspent yourselves. Your facilities are far in advance of your means."

"Transportation is one of the most urgent questions in Canada at the present moment, and on it depends the development of your country more than anything else in the world."

Many Placed On Farms

Fifteen Thousand Given Work Up To Middle Of September

The ranks of the unemployed have been depleted by 15,000 men who have been placed on farms in Canada, as the result of plans drawn up by the Minister of Immigration and Colonization, Hon. Wesley A. Gordon.

The machinery of the soldiers' settlement board is co-operating with the Canadian National Railway and Canadian Pacific Railway in the work.

Up to the present 3,740 families and 10,609 single men have been placed by the Dominion on farms while the province of Ontario has similarly placed 800 families and 2,000 single men, and the province of Quebec 450 families and 300 single men.

Atomic Hydrogen

Produces The World's Hottest Welding Temperatures

The flames of atomic hydrogen, which produce the world's hottest welding temperatures within flames which are comparatively "cool," were demonstrated on a grand scale in the opening session of the American Physical Society.

The scientists watched men wearing goggles, gas masks and asbestos clothing manipulate the flames at the General Electric Company, demonstrating their enormous heat as the most effective means ever discovered for making perfect airtight joints of metal.

The demonstration was part of an exhibit of results of the handiwork of the physicists.

Famous Jewel For Museum

The famous Canning Jewel, which the Earl of Harewood sold at Sotheby's last June for \$50,000, has been presented to the Victoria and Albert Museum. The Earl of Harewood, who desired to remain anonymous. The jewel dates from the 16th century and is traditionally supposed to have been sent by the Grand Duke of Tuscany to one of the Mogul Emperors.

home for Borden's CHOCOLATE MALTED MILK

WIFE MOTHERS always use Borden's Chocolate Malted Milk for their children. It is the best food for children from school and play. Children readily receive the best of health and energy from Borden's Chocolate Malted Milk. No wonder it is so popular.

OPPOSITION TO EARLY ELECTION IN GREAT BRITAIN

London, Eng.—The London Daily Mail says that the board of governors of the Bank of England have taken the "unprecedented step" of visiting the House of Commons to inform the Prime Minister that the National Government must remain in power at least two years if a heavy fall in exchange is to be avoided.

The Mail for several days has been conducting an energetic campaign against the Conservative proposals for an early general election. Its story was published under heavy headlines.

"The affairs of the nation reached a position of extreme gravity Thursday, September 17," it said. "Information was conveyed to the government from the city (London's financial centre), that a precarious exchange situation exists—and it would appear on reports thus conveyed to the government that the recent unrest in the fleet had a profound effect on British credit and that the time has come when all other considerations save those of national existence must be put aside."

"The board of governors of the bank, the paper said, asked the government to make a definite announcement that there would be no election before the end of the year and that the government would remain in power for its full possible term of two years. It said that the board gave Premier Ramsay MacDonald an alarming estimate of the amount of fall in exchange which would follow any announcement that an election had been decided upon."

The Mail added that the cabinet met upon a late hour and that Mr. MacDonald asked the members to come to a definite decision for or against an election.

Talk of a general election soon has been growing stronger during the past week and there was a widespread conviction in the parliament lobbies that it would take place the last week in October or early in November, when an appeal to the electors would be made by the National Government, headed by Mr. MacDonald, and not by parties.

It was believed in the lobbies that Mr. MacDonald would be willing to head such an appeal and it was said that doubts about the wisdom of an early election were held only by the Liberals and were regarded as based upon that party's hostility to a tariff policy.

Cut Land Taxes

Relief For Manitoba Agriculture Is Chief Motive

Winnipeg, Man.—Cutting almost \$400,000 from the land taxes on provincial revenue an order-in-council has been signed by Hon. J. D. McGregor, Lieutenant-Governor of Manitoba. The step is intended to relieve municipalities by giving them a larger share in revenues derived from land taxes.

The levies on the municipalities of \$300,000 for operation of the Child Welfare Act and \$90,000 for the Soldiers' Relief Taxation Act are wiped out. Although the land taxes for these purposes are abolished the government contemplates no curtailment in the services by which they have been collected. These will be financed out of the general revenues of the province.

Announcement of the wiping out of the taxes was first made by Premier John Bracken last week. He then suggested the money needed might be found by economies in administration, from the Natural Resources Reserve Fund, or from taxation elsewhere on those able to bear it.

Relief for agriculture was the chief motive of the change but it is also hoped it will have the effect of permitting lower rents in the city of Winnipeg.

As a measure of economy the government has already reduced the salaries of all provincial officials and civil servants from the premier down.

Completing Plans For Bonus

Calgary, Alberta.—Arrangements for the payment of the five-cent Dominion Government bonus on wheat is nearing completion in Alberta. Office supplies and other equipment required in distributing the bonus have arrived at the Alberta wheat pool head office. They will be sent to pool elevator agents immediately, it was stated.

Manitoba Sugar Beets

Thirty Manitoba growers of sugar beets have 421 acres under cultivation this year, according to the latest report.

W. N. U. 1908

Wheat Quality Is High

Equal If Not Better Than Any Previous Year

Winnipeg, Man.—The milling and baking quality of Canada's new wheat crop is exceptionally high and is equal, if not better, than that of any year tested by the Dominion Grain Research Laboratory it was announced.

The weight per bushel of the samples received to date and which have just been examined under the direction of F. J. Birchard, are about the same as last year, with the yield of four comparing favourably. The protein content is much higher than the previous crop, while the gluten of different grades also is exceptionally good.

The baking quality is excellent, the report says, and the flour absorption is higher and the loaf volume greater.

REDUCTIONS IN NAVAL PAY TO BE RE-EXAMINED

London, Eng.—After sharp exchanges over unrest in the Atlantic fleet during a turbulent session, the House of Commons waded placidly through the emergency budget's proposals to increase the duties on beer and tobacco.

The Government had comfortable majorities on the two proposals—131 on the beer duties and 74 on the tobacco duties.

All the storm in the House was provoked by the brief statement of Sir Austen Chamberlain, first lord of the admiralty, to the effect the Board of Admiralty had agreed to re-examine the proposed reductions in naval pay and to consider any cases of alleged hardship.

In view of this decision the vessels of the Atlantic fleet have been ordered to proceed to their home ports, he added.

Laborites immediately seized on this brief statement. There was a storm of opposition benches for immediate debate. The Government remained adamant. The opposition then put a motion that the House suspend the 11 o'clock closing rule, but the Government had a comfortable majority, to defeat it by 288 to 195 votes.

In an uproar of questions from the opposition and retorts from the Government benches, the Laborites asked if the unemployed whose benefits had been cut, would also be considered. They wanted to know if the soldiers and policemen would likewise be consulted about their reductions. They remarked on the fact that some of the naval rates of pay have been cut by 25 per cent, while the first lord of the admiralty and some other cabinet ministers are taking a 10 per cent cut.

Prime Minister Ramsay MacDonald replied to one of the opposition's many questions with the declaration that it had always been understood the Government departments making cuts in expenditures could adjust the burdens; a step that could be taken without materially affecting the budget estimates.

When the House returned to the emergency budget, D. G. Logan, Laborite, declared to the amusement of the House there was neither soul nor sympathy "in this damnable coalition." He challenged every member of the cabinet from the Prime Minister downwards, to do battle with him in his constituency of Scotland, Liverpool, the seat represented for several years by the late "Tay Pay" O'Connor, Irish Nationalist.

Convict Taking Arts Course

University Work Sent To Youthful Long-Termers In Portsmouth Prison

Kington, Ont.—For the first time in the history of Queen's University, a convict in Portsmouth penitentiary has made application to enter in arts course and do his studies extra-mural in prison. The applicant is a youthful long-termers. In the past five years he has passed all Ontario departmental exams from entrance to high school. The university work will be sent to him by the head of the extra-mural department at Queen's.

Quebec Session

Report States Legislature Will Be Called For October 20

Montreal, Que.—The Star publishes the following:

"The first session of the newly elected legislature will be called for October 20, the date already fixed for its meeting, when the House will be dissolved in July last, it is stated in Liberal circles here. Many reasons are advanced for this early session, but the chief is the necessity for the Government to get the proper authority to make extraordinary expenditures for unemployment relief."

TWO CANADIAN DELEGATES TALK AT LEAGUE MEET

Geneva, Switzerland.—Committee of the assembly of the League of Nations heard eloquent and important speeches by two Canadian delegates, Hon. Hugh Guthrie, Minister of Justice, and Senator C. P. Beauchemin, of Montreal.

Mr. Guthrie spoke when the first committee of the assembly discussed the subject of bringing the League covenant against war into harmony with the Kellogg peace pact.

The general sentiment of the committee is so far in favour of acceptance of the proposed amendments to the covenant, which in the opinion of several speakers would tend to facilitate the work of next year's world disarmament conference, for they would leave no ambiguity or doubt that war is to be abolished as an instrument of national policy.

Acceptance of the conclusions reached last year, in favor of the proposed amendment, was advocated by Mr. Guthrie. He expressed strong opposition to any suggestion the matter should be adjourned.

The danger of adjournment, he pointed out, was that the man in the street would say the nations of the world rushed to renounce war but refused to translate their actions into a formal undertaking.

Senator Beauchemin spoke during committee deliberations on the minorities question. He advocated improvement in the present procedure of the league on the minorities problem, stressing the need for greater publicity concerning the treatment of minorities. Viscount Cecil, of Chelwood, the British Government's chief delegate, supported Senator Beauchemin, while Foreign Minister Curtius, of Germany, agreed that more publicity was needed.

"Justice may be blind but it need not be concealed," declared Senator Beauchemin. The subject was of the greatest interest both to Canada and her great neighbor to the south, he stressed, for both Canada and the United States had numerous minority populations which remained firmly attached to their countries of origin.

REPRESENTS CANADA

C. A. Bowman, Editor of the Ottawa Citizen, who is one of the Canadian delegates to the fourth biennial meeting of the Institute of Pacific Relations to be held at Hangchow, China, in October.

Count Only Preliminary

Further Returns From Recent Census Subject To Correction

Ottawa, Ont.—A further statement of population in a number of cities and towns of Canada which were not dealt with in previous announcements, has been issued by the Dominion Bureau of Statistics. The statement covers more particularly a number of towns, although it deals also with two or three cities in different provinces. The figures issued show that the city of Quebec, increased from 85,193 in 1921, to 129,103 in the present year. The population of Windsor, Ont., has advanced from 38,591 to 62,957 in the ten-year period.

In western Canada, the city of Regina reported an increase from 34,432 to 53,934.

The largest percentage increase recorded in the statement is in the town of Riverside, Ont., which increased its population from 1,155 in 1921 to 4,450 in the present year. This is an increase of 283 per cent.

It is made clear in the statement that the count is a preliminary one and that returns are subject to correction as additions on account of closed houses and absentees have yet to be made.

Proportional Vote Opposed

Manitoba Conservatives Object To Proposal Of Attorney-General

Winnipeg, Man.—Opposition to the principle of proportional representation contained in a suggestion by Hon. W. J. Major, Attorney-General, for a reduction in the number of seats in the Manitoba Legislature, was expressed on behalf of the Conservative party by Col. F. G. Taylor, leader of the group.

Col. Taylor said his party has no objection to the proposed reduction, but "will use every legislative means to prevent the extension of the suggested proportional representation system to the rural areas of the province."

Mr. Major's suggestion would reduce the number of seats from 55 to 35 and would apply proportional representation to the whole province with the exception of four single-member constituencies.

Superiority Of British Films

Toronto, Ont.—The increasing superiority of British motion pictures has led to the establishment in England of branch United States studios according to F. S. Royell, Canadian representative for British International pictures. "Hollywood is alarmed," he commented.

Radio Development

Col. Steel Appointed To Staff Of Research Council

Ottawa, Ont.—Lieut.-Col. W. A. Steel, M.C., who has directed the radio development of the Department of National Defence, has been appointed to the staff of the National Research Council. It is announced, starting October 1, he will have charge of the council's radio research programme.

Colonel Steel has had a distinguished career in both military and radio fields, he has represented Canada at numerous international radio conferences and he accompanied Premier R. B. Bennett to the last Imperial Conference.

Radio research has been assigned a definite place in the plans of the National Research Laboratories, and many problems of a technical nature will be dealt with under the direction of Col. Steel.

International Peace Garden

Tract Of Land At North Dakota and Manitoba Border Is Selected

Asbury Park, N.J.—A tract of land on Turtle Mountain at the North Dakota-Manitoba border was approved by the National Association of Gardeners Convention as the site for the International Peace garden.

Final decision on the adoption of this site will be made next spring at a joint meeting of the International Peace Garden Commission, and executive committees of the Canadian Association of Florists and Gardeners and the National Association of Gardeners.

Date and place of this meeting has not been determined.

MEASURES TAKEN FOR RELIEF WORK ARE OUTLINED

Ottawa, Ont.—A review of Canada's unemployment problem and an outline of the relief measures which are being taken by the Federal Government in co-operation with the provinces and municipalities is outlined in a statement issued by Hon. G. D. Robertson, Minister of Labour.

"Relief of the farmers in the drought stricken areas of the prairie provinces constitutes the most difficult problem in western Canada, but it must not be confused with unemployment arising from industrial and commercial fluctuations."

"Some substantial projects in the urban centres have been tentatively proposed, and the Minister of Agriculture (Hon. Robert Weir), is actively directing the farm relief programme in those areas, particularly in Saskatchewan, as well as assisting in the relief of unemployment in the cities and towns."

"In western Canada substantial park areas in Alberta offer opportunities for the creation of considerable useful work in delimiting park boundaries, clearing and building roads and opening up avenues of communication between park areas, of which Jasper and Banff are centres, as well as some similar works in parks located in Manitoba, Saskatchewan and British Columbia."

The Provincial Government of Alberta has concluded an agreement with the Federal Government respecting both provincial and municipal undertakings in that province, and, like Ontario, expects that substantial relief will accrue to the larger urban centres by the withdrawal of transients and single men, who may be wisely assisted in the outside undertakings, both in parks and on provincial roads.

"The Province of British Columbia is suffering particularly because of the contraction in the lumbering and mining industries. Field crops in that province, as in the eastern provinces, have been quite satisfactory as to volume, but not so satisfactory as to sales prices obtainable."

"Manitoba has already commenced some highway construction work and a substantial programme of municipal projects will be submitted for approval shortly."

"There are many indications that the nation-wide depression is passing and that Canada may look forward with reasonable assurance that, as in every similar previous experience, she will emerge earlier than some other countries to a new era of progress. During the past week, however, the transportation situation seems to be improving and it may with reasonable confidence be expected that railway earnings will show better results during the next few weeks than they did in the month of August, owing to the fact that the crop movement is later this year than last year."

Only 20 talking pictures were produced in Italy in the last year.

SURVEY IS MADE OF THE WEST'S NEW GRAIN PORT

Churchill, Man.—Built on the barren shore in Manitoba's north country, Churchill's ultra modern harbour development won the acclaim of an Ottawa delegation headed by Hon. R. J. Manion, Minister of Railways and Canals. Two other cabinet ministers, Hon. Robert Weir, Minister of Agriculture, and Hon. T. G. Murphy, Minister of the Interior, were in the party making a rapid-fire survey of the new born grain port.

Confidence in the ability of Canada's farthest north grain harbour to handle the nation's winter wheat shipped up via the bay route was expressed by Mr. Manion. Before leaving for the south he remarked that the mechanical portion of the port development had functioned perfectly on its initial test, leaving success of the route dependent only on the trend of trade.

Not a doubt was entertained by the minister but that the "Farnworth" and the "Warkworth," chartered by the Government to carry the inaugural bay route shipment of cargo this month would reach their destinations successfully. He even considered that lower bay insurance rates on bulks and cargoes might be expected for next season as result of the two shipments of some 15,000 bushels of Saskatchewan wheat.

Canada's Government, Mr. Manion promised, would draw the attention of the Imperial shipping committee at London any successful journeys overseas through Hudson Straits, in the endeavour to obtain the most equitable insurance rates possible. He stressed the fact that the government had undertaken to insure that rates on the test shipments from Churchill would not be higher than from the prairies via Montreal. Possibility that the Government might be called on to foot a bill for an extra cost by the bay route was indicated by Mr. Manion in view of current low rates on the Great Lakes due to lack of cargoes.

He pointed out that the Government had provided its harbour facilities for the trial shipments without cost, and would implement its promise to absorb the rate differential if any other Government was seriously endeavouring to do everything possible at Churchill, stated Mr. Manion, pointing to plans for freight sheds, raw grain galleries and other developments.

The sheds are to be constructed on the pier next summer if the foundation of the pier has settled sufficiently to allow work to be done.

By the time shipping opens on the bay next summer, the harbour will be ready to handle cattle, from the west's agrarian areas, the minister forecast. He mentioned that such a trade might necessitate the provision of four yards at The Pas 511 miles southward, but saw no difficulty in the way.

Coal and lumber handling facilities, he said, would be pressed forward to handle any trade which develops and entire outfit would certainly be ready by 1933.

"The Government will promise nothing which cannot be fulfilled," said Mr. Manion, "lest the failure to implement an undertaking might result in public disappointment."

"Without John I. McFarland, head of the Canadian Wheat Pools' Central Selling Agency, the trial shipments this fall would have been impossible," commented the minister. No other offer of wheat for the bay route shipment had been made, he said, and even now the second cargo has not yet been sold. Mr. Manion announced that the shipment of No. 2 northern, trimmed down Wednesday, September 16, in the hold of the "Farnworth," had been sold by Mr. McFarland to Spillers, London, England.

Perfect synchronization of the work at Churchill by the various developing groups was named by the minister as the cutting edge for the steady success of inaugural operations. He commended especially C. D. Howe, consulting engineer of Port William, Ont., who designed the 2,500,000-bushel elevator which has taken rank as the world's fastest operating ocean terminal.

Four Straight Records

Quebec, Que.—The Canadian Pacific liner "Empress of Britain," docking at Quebec, August 31, made its fourth straight record of the Atlantic journey, from land to land, in four days, nine hours and 23 minutes. This is the fastest time in which this stretch of water has been covered. The steamer carried nearly 1,000 passengers and 21 automobiles.

Operated by one man, an electric shovel has been developed that will take eight dump-car loads at a bite every minute.

FAMOUS AIR GIANT TO BE SCRAPPED FOR ECONOMY'S SAKE

To the millions of Canadians who had the good fortune to witness the British Air Monarch, R-100, in flight over Eastern Canada following her Atlantic trip a year ago, the news that she is to be scrapped as part of the Motherland's "strict economy" plan, will be accepted with great regret. It seems a pity after spending more than \$2,000,000 in her construction, that the British Air Monarch should be scrapped. Aboard are two famous air pictures, taken in Montreal, showing the giant dirigible anchored to the airship mast at St. Hubert, and a close-up of the work by which passengers and crew board the airship.

WAS MAN MADE FOR SUNDAY?

Rev. Story, of the Tabernacle, does not like our stand on Sunday observance and neither do we like his.

He believes that man was made for Sunday, while we believe Sunday was made for man.

Under his dictum, a hungry man would be deprived of work because the day was Sunday. Worshipping God on an empty stomach would probably be his highest form of penitence.

We do not subscribe to this kind of religion. Taking advantage of good weather and giving employment to hungry men is a far higher form of religious devotion than that practiced last week by the department of public works or that sanctioned by Rev. Story, who probably enjoyed three square hot meals that day. And speaking of moral courage, as exercised by the department of public works in prohibiting Sunday work when the rainy season was upon us, which the pastor points to with so much pride, has two interpretations. In our opinion it showed poor judgment.

So far as the Canadian press standing behind Canadian law is concerned that also should bear a liberal interpretation. Obnoxious laws should be criticized in the same manner as public men who are remiss in their duties.

The Lord's Day Alliance is not a popular association and neither is the Lord's Day Act a popular law. It was passed by a howling minority and is kept alive by the same class, assisted by cringing politicians, most of whom play golf all day Sunday while they sanction intolerance and special Sunday observance for others.

In voicing this perfectly frank opinion, we wish it understood that we believe everybody should worship God according to the dictates of their own conscience and that they be permitted to spend their day of devotion in whatever manner their own conscience or inward light indicates.

Ramming religious dogmas down the throats of a free people is a favorite pastime with some, but their sway is waning and we believe before long the Lord's Day Act will be the source of as much amusement as the alleged blue laws of old Massachusetts.—Kimberley Press.

MINE WORKERS

CONCLUDE MEET

CALGARY, Alta., Sept. 23.—(By the Canadian Press)—Directors of the Mine Workers' Union of Canada convened here Tuesday and finished business of the general convention which closed last week-end.

Resolutions adopted included demand for non-contributory state unemployment insurance; protest against evictions and garnishing wages; abolition of legislation interfering with picketing rights; protest against deportation of workers who have taken an active part in political and trade union movements; protest against embargo on Soviet imports to Canada; protest against use of militia in suppression of any disorders, and the condemnation of wage rates on government relief projects.

James Sloan, president, may again visit the strike scene at Estevan, Sask., shortly.

Her Valuation

Mandy: "Rastus, you all reminds me ob one ob dem flyin' machines."

Rastus: "Cause Ah's a high flyer, Mandy?"

Mandy: "No. 'Cause you ain't no good on earth."

Local and General Items

Then there was the Scotchman who was so close he got slapped.

Definition: "A limousine is a sedan with a glass partition to protect the driver from silly conversation."

Anglers have been curious to know if water skis could be used to run down stubborn fish that refuse to bite.

And it was a Scotchman who walked into Bill Oliver's dairy and asked for a pound of butter wrapped in today's paper.

The steamer Farnworth was the first to load with grain at Churchill for the overseas market, leaving that port on September 15th.

The idea for slow-motion pictures came to the inventor while watching two Scotchmen reaching for the lunch check.

A councillor in a neighboring town says: "If we all put our heads together, we can build a concrete sidewalk." What about the wooden affair?

A Scotchman discovered a previous customer's tip beside his plate in a restaurant. He summoned the waitress: "I found this beside my plate," he told her. "I'm a sport—I'll match ye for it."

Harry Scott, well known sports booster and writer for the Calgary Herald, remarks: If you have scrambled eggs today, be thankful—tomorrow you may have to scramble for them.

Major-General J. H. MacBrien, C.B., C.M.B., D.S.O., the new commissioner of the Royal Canadian Mounted Police, addressed the Alberta Military Institute members and friends at Calgary on Tuesday evening.

H. A. Craig, deputy minister of agriculture, states that Alberta has over 70,000 farms last year produced 31,000,000 dozen eggs. One hundred and twenty-two carloads were exported.

A firm of shipowners wired one of their captains: "Move heaven and earth; get here Friday!" Just as they were becoming anxious, they received this reply: "Raised hell and arriving Thursday."

Because their demand for dismissal of an assistant overman was not immediately met by company officials at Sydney Mines, hundreds of miners went on strike at the Florence colliery on Monday.

Delegates to the Sovereign Grand Lodge of the Independent Order of Oddfellows, in annual session at Winnipeg, selected Denver, Colorado, as the convention city for the 10th session next year.

Herb Gardiner, one time Calgary Tiger hockey star, who spent the summer in Calgary, has departed for Philadelphia, where he will resume the management of the Arrows in the Canadian-American league during the 1931-32 season.

The Scotch doctor lay dying. With almost last breath he said to his wife: "When I'm to be buried I want a nameplate on my coffin." "Ye shall have it," she assured him. On the morning of the funeral the passersby noticed that the polished brass plate which had graced the doctor's doorpost was missing; and the grave-diggers read through their tears, as they lowered the casket: ANGUS ABERNETHY, M.D. Office hours 9 to 11 a.m.

Motorists have found it a bit wearisome to have their attention distracted by the throngs of hitch-hikers this year; so much so that they are really entertained by the latest methods of the mileage-beggars. The new model hitch-hiker is now said to be carrying his own "props"—a gasoline can and a funnel. With this significant scenery he rarely fails to get a ride and once in the car he will go as far as you take him. Incidentally, the can serves a double purpose. It's his trunk. The bottom is false and his duds and grub are stowed away inside.

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, September 27th, the pastor in charge.

11 a.m.—SENIOR SCHOOL

2 p.m.—JUNIOR SCHOOL

7:30 p.m.—PUBLIC WORSHIP.

Daily day service will be held at 7:30 p.m. The schools will conduct the service. The theme is: "Stories of Jesus."

Please note the change in time of the Junior School which will be held at 2 p.m. throughout the winter.

ST. LUKE'S, BLAIRMORE

A. S. Partington, Vicar

Sunday, September 27th—Sunday school in hall at 10 a.m. Harvest Thanksgiving service at 7 p.m. in church, preacher Rev. Mr. Barclay, of Bricket. Donations of flowers, fruit, vegetables, etc., will be thankfully received at the church at 2 p.m. on Saturday.

A whist drive will be held in the hall on Thursday, October 1st.

Lots of fellows nowadays are fire sufferers. They are suffering from getting fired.

Terence—"Tis a fine lad ye have here. A magnificent head and noble features. Could ye lend me ten shillings?"

Pat—"I could not. 'Tis me wife's child by her first husband."—Nothing Man Evening Post.

Most Rev. C. L. Worrell, of Halifax, N.S., archbishop of Nova Scotia, since 1915, has been elected primate of all Canada by the house of bishops of the general synod of the Church of England in Canada, succeeding the Most Rev. S. P. P. Matheson, of Winnipeg, retired.

The "Lucky Strike" softball team entertained at the home of Mrs. A. Vejprava on Monday evening, September 21, in honor of Mrs. Bill Johnston (nee Lila Barrell), when they presented her with a silver sandwich tray. Games and dancing added to the evening's pleasure, the party breaking up after partaking of a thirty midnight luncheon.

Sentences of two months at hard labor were imposed on six men convicted on charges laid in connection with a Communist demonstration at Kirkland Lake, Ontario, on September 8th. Three others were remanded one week for sentence on more serious charges, and the case against the tenth was withdrawn. The sentenced men were charged with creating a public disturbance, while those remanded face charges of obstructing the police.

An exchange remarks: The speed with which the arrest and prosecution of an Edmonton youth took place recently, recalled to Inspector Bavin, of the A.P.P. at Calgary, the celebrated Bassoff case, which centered about the Crown's "West Pass." In 1921, as Inspector Bavin related, "a passenger train was held up by three Russians, Bassoff, Akroff and Orelf, at Santinel. Corporal Usher, of the R.C.M.P., and Constable Bailey, of the A.P.P., were shot and killed, and Corporal Frewin, of the A.P.P., now at Nanton, shot and killed the bandit Akroff. Bassoff was hanged for the crime, but Orelf made his escape to the United States. Some years later, he was arrested at Butte, Montana. From the time he was taken into custody at the Canadian border by the A.P.P., until he was sentenced to seven years at Prince Albert penitentiary by the magistrate, only five hours elapsed. Orelf has since died in the penitentiary."

HILL REST HAPPENINGS

A number of members of the Knights of Pythias lodge attended a district meeting at Lethbridge on Wednesday evening. A very enjoyable time was had by all the visitors. R-Birt Cruickshank left on Sunday evening for Edmonton, where he will continue his studies at the university. The many pupils of Miss M. Chardon are looking forward with pleasure to his return next month.

George E. Cruickshank, M.L.A., is out of town this week, visiting at Calgary and Wetaskiwin.

Mr. and Mrs. P. McNeil and Mrs. Donald Grant were visitors to Lethbridge recently.

A very enjoyable evening was spent in the community hall last Wednesday evening by a newly formed bridge club. The prizes awarded were: ladies' first to Miss M. Graeme, of Bellevue; consolation to Miss Helen Westrup. Gentlemen's first to Isaac Danick; consolation to Nick Andreasschuk. After the cards, light refreshments were served and the evening was concluded with a few hours of dancing. Those on the committee of the bridge club are: Misses Margaret Grant and Audrey Martin, and Messrs. Alex. Grant, Donald Grant and Isaac Daniels.

CORBIN HAPPE I GS

The Ladies' Aid held a successful tea and vegetable sale in the lodge hall on Monday afternoon of this week.

The marriage of Kenneth Parsons, of Corbin, to Dorothy Little, of Michel, was solemnized on Saturday, the 19th, at Michel. The young couple will take up residence in Corbin, where Mr. Parsons is connected with the Flatbush Trading Co.

Mr. and Mrs. F. Coumes were in Calgary on a short holiday this week, returning home on Saturday.

Although sheets of rain and snow, driven by a cold wind, soaked the players and flooded the field, Fernie and Corbin football teams showed the few fans that braved the elements some good football, from which Corbin emerged victorious with a score of 8-1.

Corbin has experienced some stormy days this week with either snow or rain making the ground muddy. Only a few straggling spots are to be noticed on the hillsides as a result of the precipitation this week. Baseball fans were pleased to see the Michel and Corbin juniors on the diamond on Sunday afternoon. Michel made Corbin be content with the short end of a 12-9 score.

Mr. W. Rothel and party are receiving congratulations on their lucky escape from a serious automobile accident on Saturday the 12th. Although the car is a total wreck nobody was hurt.

GEORGE ANDERSON

ARRIVED AT LETHBRIDGE

Charged with seditious utterances, George Anderson, who has in the past been given considerable publicity through his activities in unemployed circles, was arrested at Lethbridge on Wednesday morning, to appear today to answer the following charge: "That he, on the 15th day of August, A.D. 1931, at Lethbridge, in the said province, did unlawfully and with seditious intent speak certain seditious words to wit:

"You see the flag flying by the City Hall, the Union Jack, the flag some of you fought for in the late war. It will be a damned long time before that will fill your bellies. You know the promises they made to you when you went to fight. You know the heroes you were then. This is what the capitalists will give you, starvation every time. There will be another war presently, I can see they are preparing for it now. They will be telling you the same old story, and the pretty ladies, (capitalist agents) will be along with the white feathers for the slackers. Well, when they give you the rifles, all I have to say is, make good use of them, I won't have to tell you who to fire them at."

BELLEVUE FLOWER SHOW

PRIZE WINNERS, 1931

Following is a list of awards made in the recent exhibition of the Bellevue and District Horticultural, Industrial and Poultry Society. In connection with the exhibition, the various judges expressed themselves as being unusually surprised at the great number of exhibits and the remarkably high standard of same.

The thanks, also, of all interested officially with the exhibition and sports are extended to all who wholeheartedly co-operated towards their success.

The awards were as follows: Best garden display of vegetables—G. W. Goodwin, first; J. T. Clayton, second.

Best collection of vegetables—G. W. Goodwin, first; E. Cole, second; J. Curry, third.

Round white potatoes—G. W. Goodwin, first and second; S. T. Humble, third.

Round colored potatoes—G. W. Goodwin, first and second; H. Instone, third.

Kidney white potatoes—G. Cousens, first and third; M. B. Walker, second.

Kidney colored potatoes—G. W. Goodwin, first and second; S. T. Humble, third.

Collection of round white, round red, kidney white and kidney red potatoes—G. W. Goodwin, first; M. B. Walker, second; H. Robinson, third.

Any other variety potatoes—G. Cousens, first and third; S. Rowe, second.

Marketable potatoes—S. Rowe, first; G. Cousens, second and third.

Cauliflower—G. Heal, first; J. D. McDonald, second and third.

Conical cabbage—L. Fauville, first and third; L. Mottl, second.

Flat cabbage—G. W. Goodwin, first; H. Riva, second; Mrs. Knezicko, third.

Round cabbage—L. Fauville, first and third; H. Riva, second.

"Contrary to the criminal code of Canada."

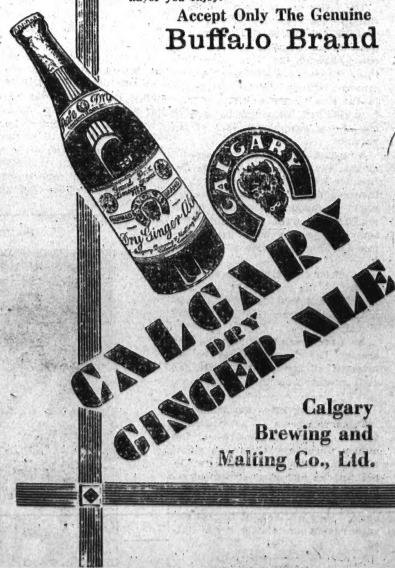

The offence is said to have been committed in a speech made by Anderson in Galt Gardens on the morning after the city council decided to cut off relief for single men.

Sir Henry Thornton, chairman and president of the Canadian National Railways, is in western Canada, in-
specting the company's properties at all the principal railway terminals. He was at Jasper for the termination of the Totem Pole golf tournament last week-end. From Jasper he proceeded to the Pacific coast, travelling from Vancouver to Prince Rupert on one of the company's Vancouver-Alaska steamers, a service which has met with marked success the past year.

Substitution

When a product attains the immense popularity enjoyed by CALGARY DRY, it invariably occurs that from time to time you are offered or served other brands of inferior quality and flavor. Remember—only in CALGARY DRY will you find the true full flavor you enjoy.

THE HOUSE OF
DREAMS-COME-TRUE

—BY—
MARGARET PEDLER

Author of
"The Splendid Folly," "The Hermit
of Far East,"
Hodder & Stoughton, Ltd., London.

CHAPTER I—Continued.

The birth of Jean, two years after their marriage, had been frankly regarded by both of them as an inconvenience. It interrupted their idyll. They were so essentially lovers that no third—not even a third born of love's consummation—could be other than superfluous.

They had proceeded to shift the new responsibility with characteristic lightheartedness. A small army of nursemaids and governesses was engaged, and later, when Jean was old enough, she was despatched to one of the best Continental schools, whilst her parents continued their customary happy-go-lucky existence uninterrupted. During the holidays she shared their wanderings, and Egypt and the southern coast of Europe became familiar places to her.

At the age of seventeen, Jean came home to live at Belreft, thenceforward regarding her unpractical parents with a species of kindly tolerance and amusement. The three of them had lived quite happily together, though Jean had remained always the odd man out; but she accepted the fact with a certain humorous philosophy which robbed it of half its sting.

Then, two years later, Jacqueline had developed rapid consumption, and though Glyn hurried her away to Montevia, in the Swiss Alps, there had been no combating the disease, and the romance of a great love had closed down suddenly into the grey shadows of death.

Peter had been like a man demoralized. For a time he had disappeared, and no one ever knew, either then or later, how he had first faced the grim tragedy which had overtaken him.

Jean had patiently awaited his return to Belreft. When at last he came, he told her that it was the most beautiful thing which could have happened—that Jacqueline should have died in the zenith of her love.

"We never knew the idyl was ending," he explained, "and when we meet again it will be

with me—I don't know in the least where I'm going or where I shall fetch up. That's the charm of it—his face—tender. "And it wouldn't be right," I propose for me to drag a young woman of your age—and attractions—half over the world with me."

"By which Jean, not in the least deceived by his air of conscious rectitude, comprehended that he didn't want to be bothered with her. He was bidding for freedom, untrammelled by any petticoats.

"So I've written to my old pal, Lady Anne Brennan," pursued Peterson, "asking if you may stay with her for a little. You would have a delightful time. She was quite the most charming woman I knew in England."

"That must be rather more than twenty years ago," observed Jean drily. "She may have altered a good deal."

Peter frowned. He hated to have objections raised to any plan that particularly appealed to him.

"Rubbish! Why should she change? Anne was not the sort of woman to change."

Jean was perfectly aware that her father hadn't the least wish to "discuss" his proposals with her, as he had said. What he really wanted was to tell her about them and for her to approve and endorse them with enthusiasm—which is more or less what a man usually wants when he suggests discussing plans with his woman-kind.

So now, recognizing that he had all his arrangements cut and dried, Jean philosophically accepted the fact and prepared to fall in with them.

"And has Lady Anne signified her readiness to take me in for an indefinite period?" she enquired.

"I haven't had her answer yet. But I have no doubt at all what form it will take. It will be a splendid opportunity for you, altogether. You know, Jean—pictorially—"you ought really to see the 'stately homes of England.' Why, they're—there's your birthright!"

Jean reflected humbly that this point of view had only occurred to him now that it had changed to coincide so admirably with his own wishes.

Hitherto the "stately homes of England" had been relegated to a quite unimportant position in the background and Jean's attention focussed more directly upon the unpleasant vagaries of the British climate.

"I should like to go to England," was all she said.

Peter smiled at her radiantly—the smile of a child who has got its own way with much less difficulty than it had anticipated.

"You shall go," he promised her. "You'll adore it. It's quite a typical old English manner—lawns and terraces all complete, even down to the last detail of a yew hedge."

(To Be Continued.)

THE RHYMING
OPTIMIST

—By Aline Michaelis—

THE POET'S GIFTS

My mother gave me this life that goes

Through these pulsing veins of mine. A part of the tide of the world that flows

In palace and street and shrine. My father gave me the power that sees

The thoughts that men's hearts would hide. The insight which glimpses their destinies

And the forces that in them bide. The love of my mother runs, pure and deep,

Through the whole of my life, like a song; And the love of my father still fresh

I keep. Though the years that he sleeps are long.

My life seemed happy and bright and sweet. All free, without bonds or bars,

And I never guessed it was incomplete Till a poet gave me the stars;

Till a poet brought me the salt spray's kiss And the sunset's flags unfurled,

Till a poet gave me the key to bliss In the beauty of all this world.

MAGIC

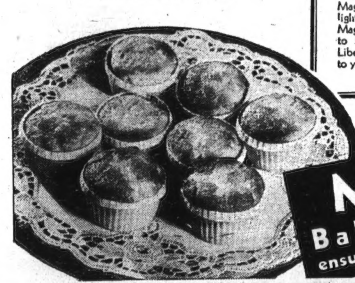

MENU

Look for this mark on every tin. It is a guarantee that Magic Baking Powder does not contain alum or any harmful ingredient.

Keep a copy of the New Magic Cook Book handy and you'll never have to worry about thinking up suggestions for attractive meals. Here, for instance, is a delightful menu selected at random from the dozens of interesting recipes it contains.

DINNER MENU

Cream Frangipane Soup
Orange and Cheese Salad
Swiss Steak
With browned potatoes
Mullin—Caramel Pie
Almond Cakes
Chase & Sanborn's Tea or Coffee

Try this Recipe for
*ALMOND CAKES

1 cup butter
1 cup sugar
1 cup milk
2 eggs
1 1/2 cups flour
2 teaspoons Magic Baking Powder
1 cup almonds, blanched and cut in pieces

Mix ingredients in order given, and bake in individual cake pans, or small paper containers, as shown in the illustration.

This recipe together with those used in the Magic Menu, and dozens of other equally delectable ones, are all listed in the New FREE Magic Cook Book. If you bake at home, write to Standard Brands Limited, Fraser Ave. & Liberty St., Toronto, and a copy will be sent to you.

Another Ice Age Coming

Will Start In About 400 Years Is Prediction

In 400 years the world will see the beginning of another Ice Age according to Firth Scott's new book, "This Reeling World."

"Down it will come advancing year by year, until it covers all Iceland," he writes. "It will swallow Northern Russia and Siberia, and creep down across Canada. The Orkneys and Shetlands will disappear under vast masses of frozen snow, until at last all Northern Scotland, perhaps as far south as Edinburgh will be blotted out. England, in those days, will be hardly habitable for the winters will be terribly severe, while the summers, though not, will be racked by dreadful rainstorms."

"Fearless and perfect in their action, Miller's Worm Powders are always a safe and reliable remedy for children who show symptoms of worms. These symptoms are easily recognizable in a feverish restlessness, frequently ending in convulsions. A point of notable importance is that after Miller's Worm Powders have expelled the worms, the stomach and bowels are toned up into a very healthy condition."

Completes Farthest North Commercial Flight In History Of Aviation

Flying from Coppermine on the Coronation Gulf to Walker Bay on the northwest corner of Victoria Island and returning between breakfast and supper-time, W. A. Spence, well-known northern pilot, successfully completed the farthest north commercial flight in the history of aviation on September 7, according to word received at Edmonton.

This brilliant flight took Spence over 150 miles further north than the epic flight of Pilot Walter Gilbert with Major L. T. Burwash in 1930. It covered a total of 600 miles of the bleakest Arctic wastes.

Worms in children. If they be not attended to, cause convulsions, and often death. Mother Graves' Worm Expeller will protect the children from these distressing afflictions.

Valuable Jewels Found
Rubies, diamonds, platinum and gold, such as the Queen of Sheba is supposed to have worn when she visited King Solomon, were brought to London by Frank Payter, big game hunter, from mines he believes were the sources of the Queen of Sheba's wealth. Payter found the gems and treasures in a cavern 320 miles due west of Addis Ababa, Abyssinia.

Head Walter: "Would monsieur prefer Spanish, French, or Italian cooking?"

Customer: "I don't mind—I want a boiled egg."

An unbroken record for the earth's weather extending back 4,000 years, has been reconstructed by studying clay deposits and tree rings.

Little Helps For This Week

"See then that ye walk circumspectly."—Ephesians v. 15.

"Tis not for us to trifle! Life is brief, And sin is here.

Our age is but the falling of a leaf, A dropping tear.

We have no time to sport away the hours: All should be earnest in a world like ours.

Not many lives, but only one have we.

Our only one: How sacred should that one life ever be?

That narrow span: Day after day filled up with blessed toil.

Hour after hour still bringing in new spoil.

—Horatius Bonar.

We have only once to live; therefore let us live to some purpose. The day that dawned this morning will never dawn again. The opportunities which it brought with it will never come again; and if we fail to fill it with the service it requires of us, there will be no possibility of returning into it to repair the mischief.

The wheels of Time's chariot have ratchets to them, and they move only forward.—William M. Taylor.

Doubtless it's true that poverty isn't a crime, but if you're guilty of poverty, you always suffer for it.

Hall Ca'ne Was Wealthy

Sir Hall Caine, author, left a personal estate of \$1,000,000 it was disclosed with the filing of the will. This does not include his real estate holdings and the value of his literary products. The estate is divided among his widow, his daughters and sons.

Footwear is being sold in Jugo-Slavia at \$1.15 to \$3.50 a pair.

BLAIRMORE

"Fighting Thru" has a scintillating cast. First, Ken Maynard, the ever-popular star of Westerns and the idol of almost every youngster in the country, is the smiling, daring, dashing hero of this mighty film. Supporting him are Jeanette Loff, the charming heroine, Carmelita Geary, the shrewd villainess, Wallace MacDonald, an idol of the silent

screen for more than a quarter of a century, Fred Burns, William L. Thorne, Charles L. King and Tom Bey. These are "names." Not merely the name of an actor or actress, but the name of a person who attracts the public to a theatre. Playing at Cole's theatre, Bellevue on Monday, Tuesday and Wednesday, September 28, 29 and 30.

Local and General Items

Was there ever such a sudden death as that of miniature golf?

Owing to wet weather, very few duck hunters were out last week end.

It was a McFavish who sent his spats to the cobbler to be soled and heeled.

W. T. Choate, C.P.R. dispatcher at Nelson, was a visitor to Blairmore last week end.

"Never put off till tomorrow what you can advertise today," is an excellent slogan.

Born, to Mr. and Mrs. P. Montalbetti, on September 22nd, a daughter. Congratulations!

Mrs. Duncan, of Aldersgate, is visiting here with her parents, Mr. and Mrs. S. H. Turner.

In spite of the heavy rains of the past week, the roads north and south from Lundbreck are in excellent condition.

Miss Freda Smith, daughter of Rev. and Mrs. J. W. Smith, left last week for Calgary to enter Mount Royal college for the ensuing term.

LOST—Gent's Gold Watch. Probably Friday evening on Cement street. Return to S. White and receive reward.

The annual general meeting of the Bellevue and District Horticultural, Industrial and Poultry Society will be held at Bellevue tomorrow evening.

A number of men employed on the relief road work east of Pasburg have gone on strike against the thirty-cents-an-hour wage.

We regret an error crept into J. E. Upton's adv. of last week. The price of fine blue serge suits was erroneously stated at \$45.00, when it should have been \$40.00.

Rev. Father Cosman, of Drumheller, accompanied Right Rev. J. T. Kidd, Roman Catholic Bishop of Calgary, to his new diocese in London, Ontario.

A number of members of the local K. of P. lodge attended a convention at Michel on Tuesday night. We understand the Michel brothers will return the visit here.

Misses Alice Hamilton, Leila Johnson, Nellie Royle, Frances Tompkins, Madeleine Hewitt and Helen Dutt, of Blairmore, have entered normal school at Calgary.

The Sovereign Grand Lodge of the I.O.O.F. opened at Winnipeg on Saturday last. Major W. B. Burnett, P.G.M., P.G.P., of Lethbridge, was an Alberta representative.

A large number of Fernie golfers visited Blairmore on Sunday last for competitions against members of the Crows' Nest Pass Golf and Country Club. The day was much enjoyed by all.

An unconfirmed report, circulating in Sydney Mines, states that 12,000 miners of District 26, U.M.W. of A., may walk out in support of the Florence miners who went on strike Monday.

Bert Huffman, father of Milo B. Huffman, formerly of The Enterprise staff, won the third prize awarded by the Calgary Board of Trade in co-operation with the provincial department of agriculture for standing wheat.

A meeting of the Blairmore Amateur Athletic Association will be held in the parlor of the Cosmopolitan hotel on Thursday evening, October 1st, at 8 p.m., to receive the report of Mr. S. G. Bannan on the annual provincial meeting held at Wetaskiwin.

Immisfall's tax rate has been set at 51.7 mills.

Max Schmeling has been slated to fight Dempsey next June.

Dr. and Mrs. Borden returned to Coleman last week end from a few days' visit to Calgary.

A Manitoba hotel proprietor boasts of having made forty cents from a Scotch boarder one month.

Mr. and Mrs. Raoul Green were down from Calgary to spend a few days with friends here.

Lethbridge Elks profited to the extent of \$1700 from their recent carnival.

Miss Germaine Houguet is down from Homer visiting her sister, Mrs. Stephenson, and friends.

SHACKS—One, two and three-room; also garage, for rent. Apply to The Enterprise.

Have you heard the one about the Scotchman who rented a house close to a church, because he was fond of rice pudding?

Drs. Borden, Blair, Reinhorn and Walkey, of this district, attended the Medical Association convention at Calgary last week.

Joseph Powley, of Toronto, has been installed as grand sire and commander in chief of the Independent Order of Oddfellows.

The local Columbus club are planning observing Columbus Day, which is also Thanksgiving Day this year, with a dance in their hall.

There were 1613 entries for the recent exhibition at Bellevue, made up of 1233 in the flower, vegetable and ladies' section; 196 in school art and 184 in poultry.

Bill Johnson was driving east from Barmis one evening, when suddenly his wife remarked: "Put it in reverse, Bill, dear. I want to go home."

The Blairmore ball-tossers are winding up a very successful season with a dance in the Moose hall on Friday, October 9th, and with the Arcadians' Orchestra in the field.

Ball fans will be in high pitch next week when St. Louis, nationals, will again clash with the Philadelphia Athletics in the world's series, which opens for the best four games out of seven on Thursday next, October 1st.

The new cook book, compiled by members of the local chapter of the O.E.S., and printed in the job department of The Enterprise, was on sale on Saturday last. The book contains some eighty pages and a wealth of information for the use of the captain of the kitchen.

Mr. and Mrs. Spence and Mr. and Mrs. Jaeger, of Jasper, passed through Blairmore during the week and visited friends here. Mr. and Mrs. Spence are practically next-door neighbors at Jasper of Mr. and Mrs. D. M. J. Conway, school principal, formerly of Blairmore.

The work of reconstructing the Bellevue garage is proceeding rapidly. When completed the structure will be much more pretentious than the one recently destroyed by fire. An added feature will be a modern service front. Mr. Green hopes to have the building completed and ready for opening early next month.

NOTICE

Having taken over my business, The Blairmore Meat Market and Sausage Factory, on September 1st, I wish to state that I have nothing to do with John Skarytko, nor is the said John Skarytko connected in any way with the business. YENC KRIVSKY, Sept. 17-24.]
